

### Swimming data for Academic Year 2017-18 (April)

We are now required to provide data to show which children, in the current Year 6 cohort, have achieved the National Curriculum Standard of 25m. The table below shows how many children:

1. can swim 25m (have achieved the National Curriculum standard)
2. have reached Stage 4 or above and therefore are able to execute a range of strokes
3. have completed one or more water safety lessons

	<b>1. Can swim 25m</b>	<b>2. Have reached Stage 4 or above (are able to execute a range of strokes)</b>	<b>3. Have completed one or more water safety lessons</b>
<b>Number of children</b>	27/51	15/51	51/51
<b>Percentage</b>	53%	29%	100%

NB. Children who did not reach the National Curriculum requirements will receive additional 'top-up' swimming sessions funded by PE & Sport Premium funding.
