

End of Year Expectations

This document contains 6 sheets, each of which presents an outline of the content of the National Curriculum from 2014. This is the curriculum that is taught at Mayflower Community Academy and are the objectives that we expect pupils to meet by the end of the year.

Core subjects (English, Maths & Science) are presented in a year-by-year format, based on the outlines given in the National Curriculum. History is also presented in this format, based on a suggested programme.

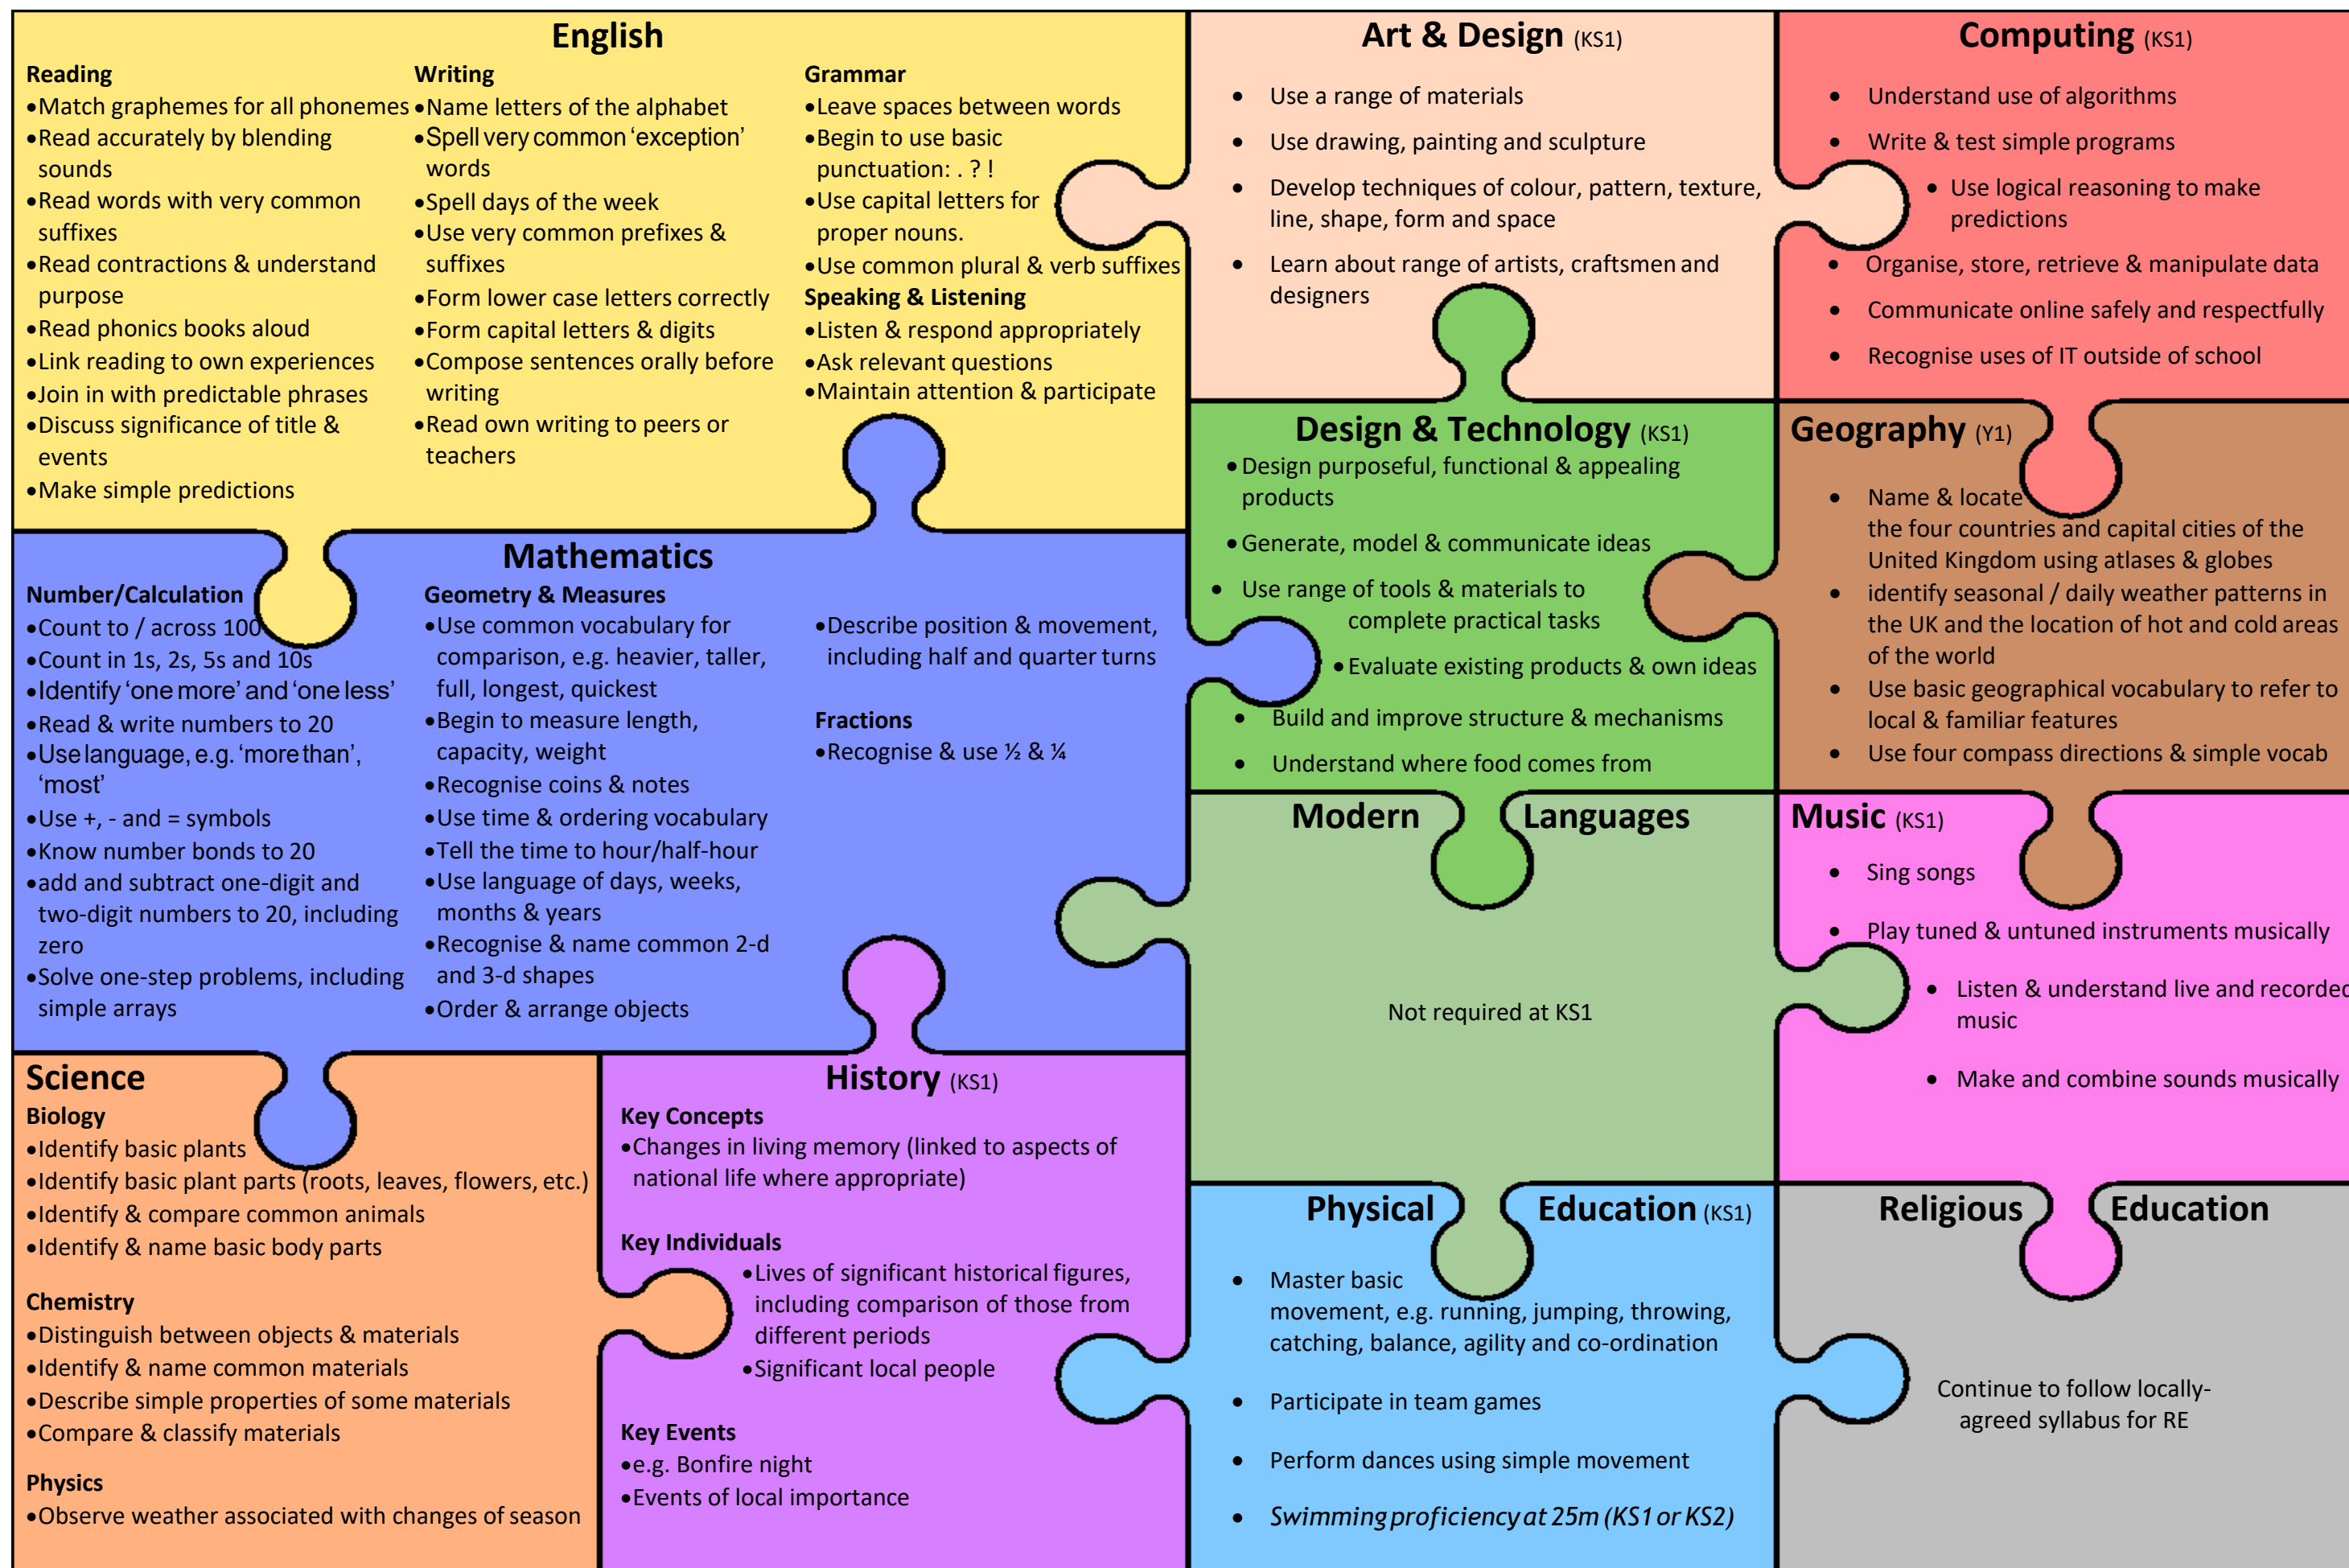

All other subjects are divided into Lower and Upper Key Stages. Therefore schools will select and organise which year groups they feel these should be placed into, so it may well be that your child hasn't yet covered all objectives in these subjects.

During the year, look at these objectives with your child - research them; explore and practise them with your child. Home Learning will be based on these objectives and workshops/interventions will also address some of the more key objectives in each subject.

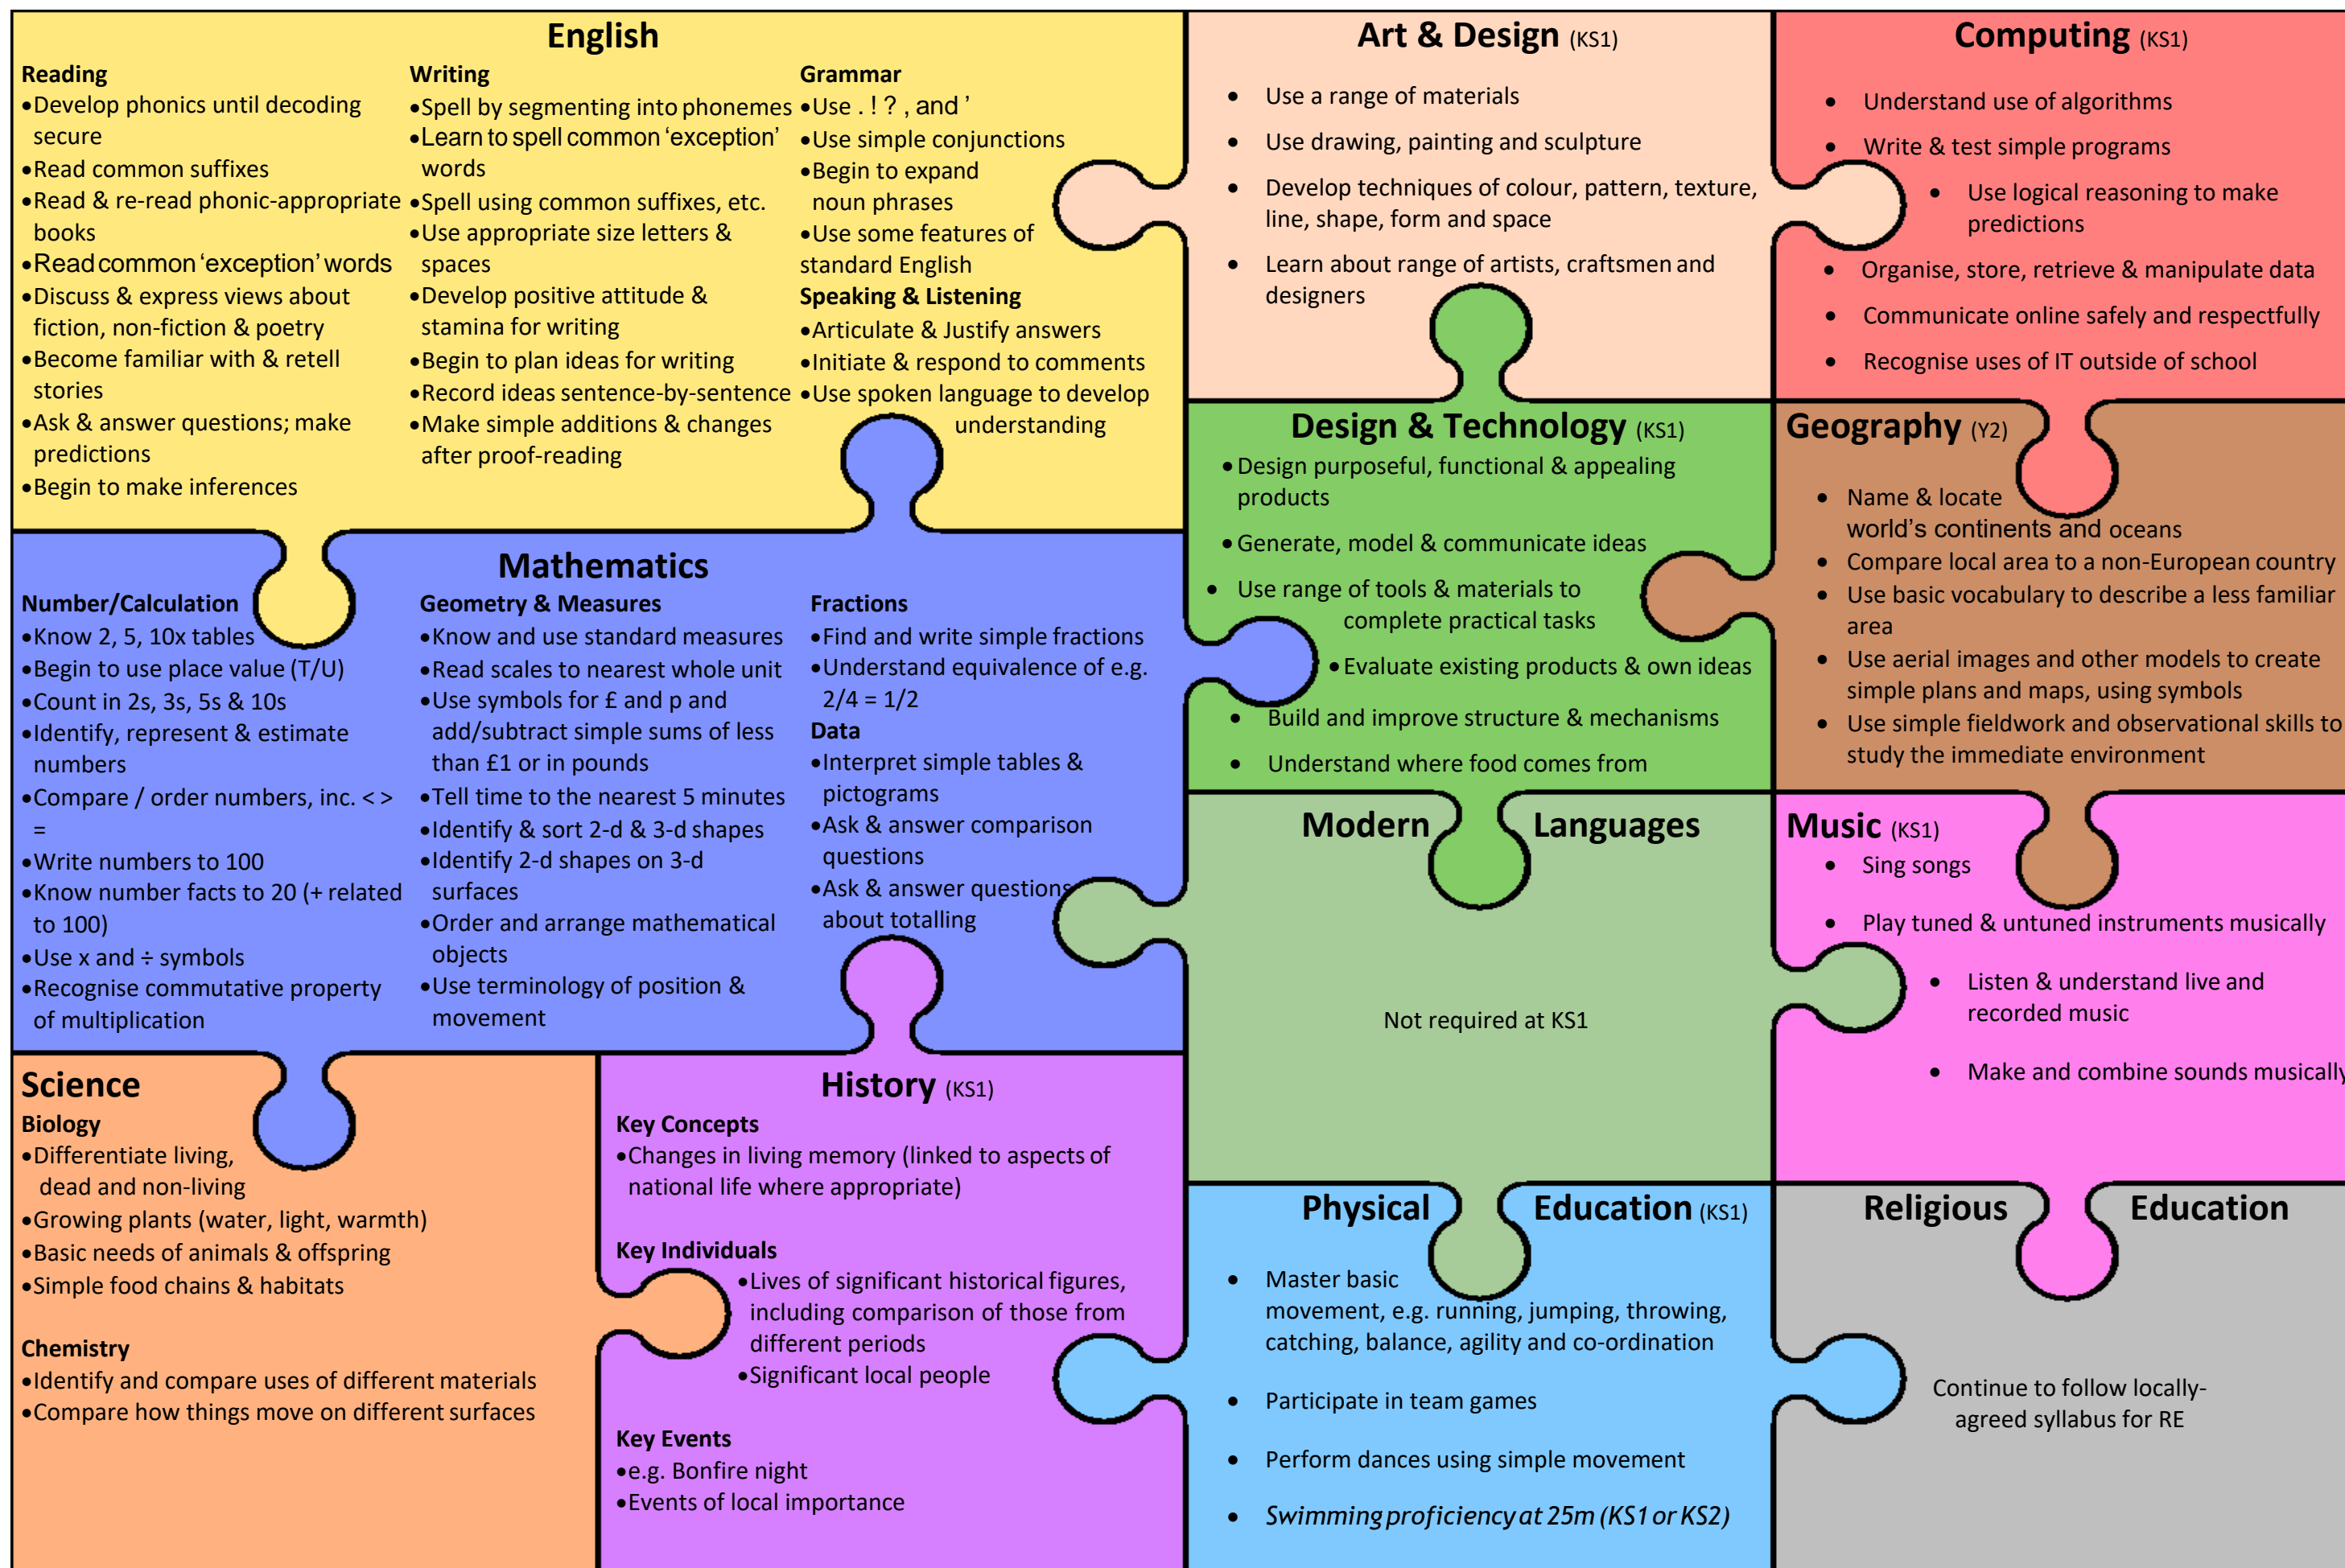

This information may allow you to feel informed about the expectations, but may also raise some questions about areas you are not so familiar with. Please use this document as a tool to address the school/ class teacher with areas that you would like more support with.
